How to Use

Shake the can thoroughly before use to ensure the foundation is evenly mixed and dispensed smoothly avoiding any watery or overly gaseous spray. Instead of spraying directly onto your face, spray the foundation onto a clean dense brush, sponge or beauty blender. Then, apply it to your skin using gentle, circular motions for a flawless, airbrushed finish.

Spray-On Brush Technique

1

Shake for 5 seconds before use.

2

Spray directly onto a dense face brush.

3

Buff and blend with the brush onto face in circular motions.
