HOW TO CLEAN BRUSHES	19
----------------------	----

The **brushes** are in! The only makeup remedy into brilliant results. We offer both: Natural Pony Bristles that are soft, great for blending and defining & HQ Synthetic Bristles that are durable, easy to clean and excellent for liquid, oil-based and creamy products.

Keep in mind that **bristles** vary and work differently. Natural **bristles** provide a nice finish, while synthetic **bristles** work well for liquid makeup. Also, **brushes** with compressed and firm **bristles** work effectively in applying makeup that requires a lot of colors. On the other hand, the loose **bristle brushes** are ideal for applying lighter makeup, powders and highlighters.
